

A

LUAD transcriptional regulator discovery and independent validation

Separate networks preserve cohort and platform independence; validation does not shrink the Figure 2 input

Pearson $r = 0.73$; $p < 2.2e-16$

C

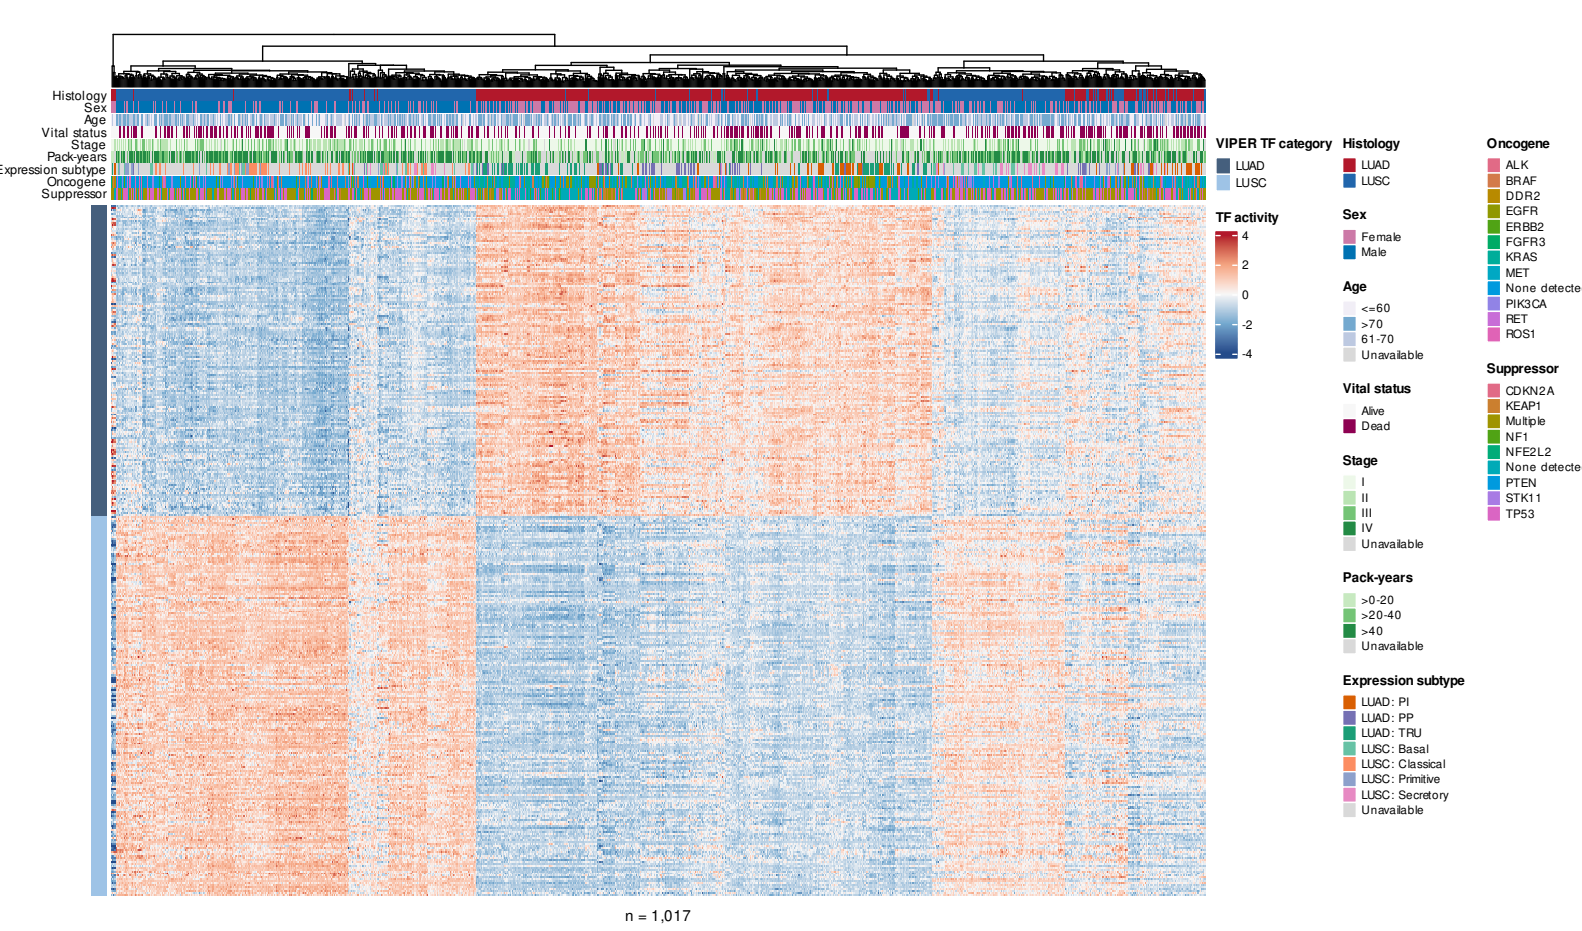

Figure 1D annotated — PDMR_PDX (56 samples; frozen activity matrix)

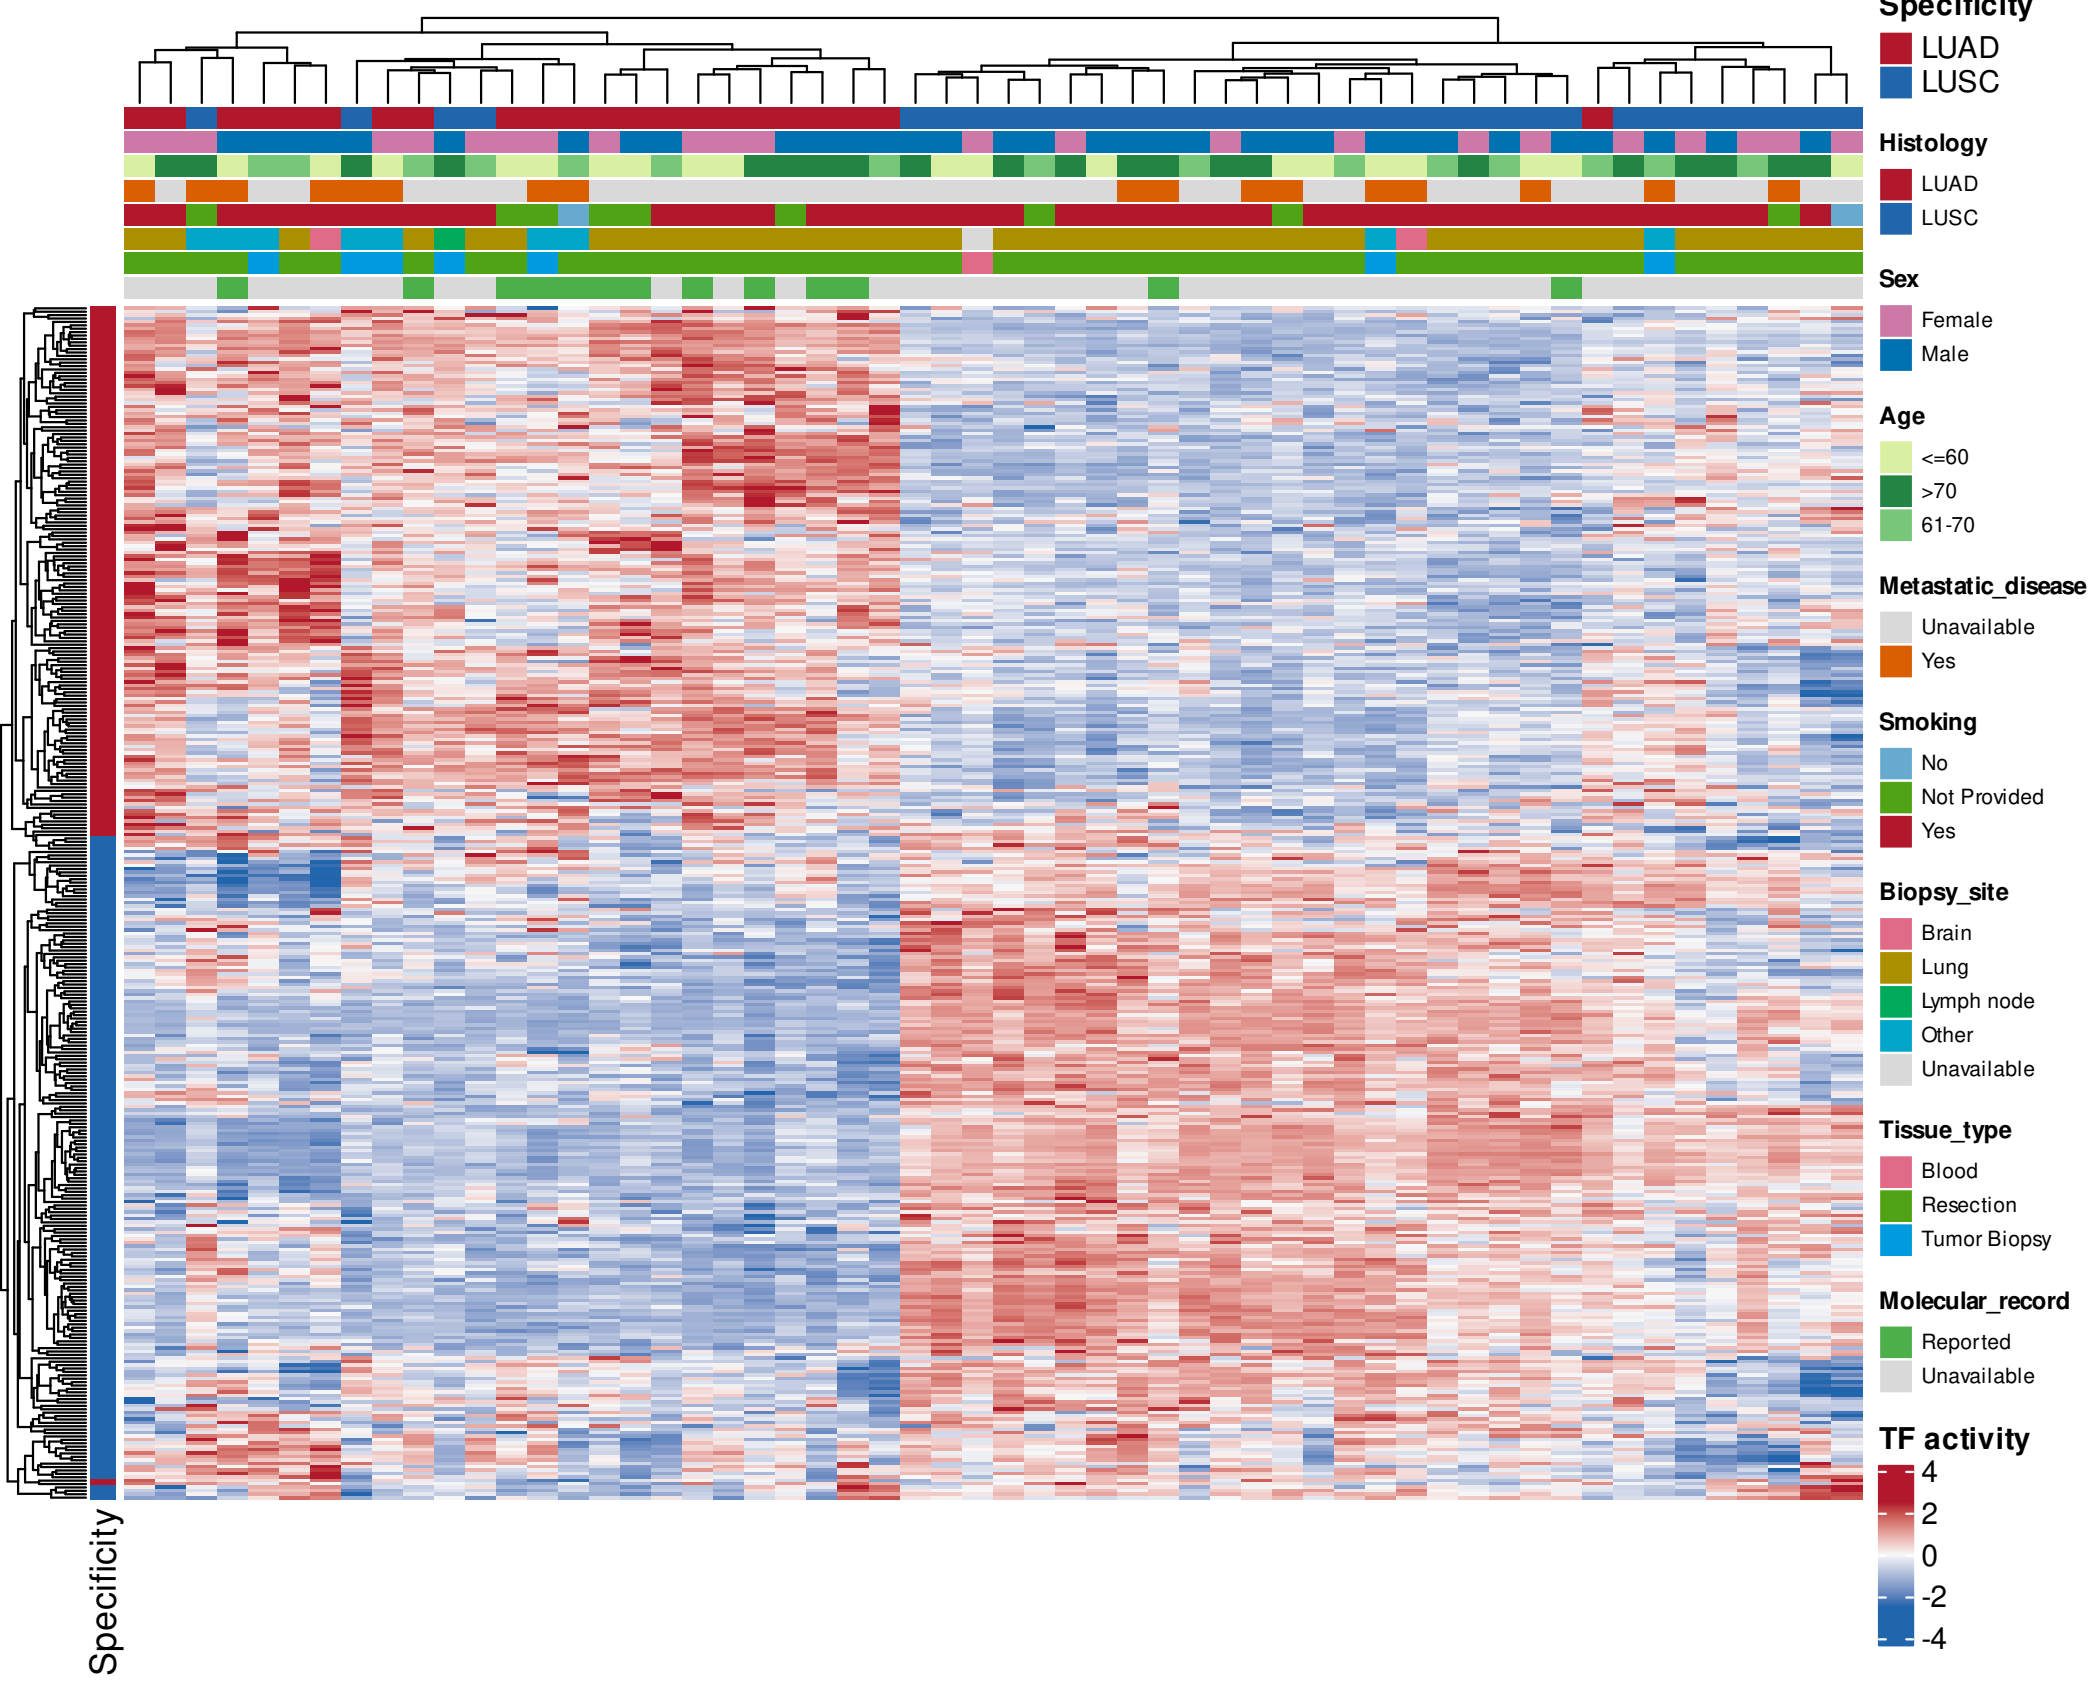

Figure 1E annotated — DepMap_22Q2 (103 samples; frozen activity matrix)
